

**Ms. Gail Walters**  
**Chief Operating Officer for CPU Tech**

Gail Walters is the Chief Operating Officer for CPU Tech, a leading embedded systems company that produces compatible embedded computers optimized for customer's applications. The company applies advanced system-on-a-chip technology to create and modernize high reliability systems, preserving valuable system software and permanently solving obsolescence issues.

Ms. Walters joined CPU Tech in 1991 as the Director of Engineering.

She has a B.S. in Physics from Purdue University and a M.S. in Physics from Indiana University.
