NGATS INSTITUTE AWARDS COMMUNITY-WIDE INFORMATION SHARING TASK TO ITT CORPORATION

June 12, 2007

FOR IMMEDIATE RELEASE

Washington, DC – The Next Generation Air Transportation System (NGATS) Institute, in cooperation with the Joint Planning and Development Office (JPDO) is proud to announce that a contractor selection has been made for the Community-Wide Information Sharing task released in March 2007. ITT Corporation has been selected by the NGATS Institute to perform the task on behalf of the Shared Situational Awareness Integrated Product Team (SSA IPT).

The study is aimed at providing information on information sharing regimes, and operator uses of usefulness, as well as an analysis of what type and class of information should be shared with what type and class of operator. This information will be used for development and analysis of candidate Next Generation Air Transportation System (NextGen) Network-Enabled Information System (NEIS) operating concepts and architectures.

Contract negotiation is to start immediately and the task is scheduled to be completed within the next several months. For more information on this task, as well as other NGATS Institute news, visit the NGATS Institute website, or contact Benjamin Corb at 202.220.3357.
