**NGATS INSTITUTE AWARDS OPTIMIZATION OF AIRCRAFT SEQUENCING
IN TERMINAL AREA TASK TO INNOVATIVE SOLUTIONS
INTERNATIONAL, INC.**

June 12, 2007

FOR IMMEDIATE RELEASE

Washington, DC – The Next Generation Air Transportation System (NGATS) Institute, in cooperation with the Joint Planning and Development Office (JPDO) is proud to announce that a contractor selection has been made for the Optimization of Aircraft Sequencing in Terminal Area task released in March 2007. Innovative Solutions International (ISI), Inc. has been selected by the NGATS Institute to perform the task on behalf of the Environment Integrated Product Team (IPT).

The study will focus on the optimization of aircraft sequencing and spacing in terminal areas to increase capacity, reduce fuel burn and emissions, and noise reduction on terminal paths.

Contract negotiation is to start immediately and the task is scheduled to be completed within the next several months. For more information on this task, as well as other NGATS Institute news, visit the NGATS Institute website, or contact Benjamin Corb at 202.220.3357.
